A WORD WITH WOMEN

VALUABLE ADVICE FOR MAYSVILLE READERS

Many a woman endures with noble patience the daily misery of backache, pains about the hips, blue, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." Often the kidneys get congested and inflamed, and aches and pains follow.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment, the passages are too frequent or scanty, then help the weakened kidneys. Don't expect them to get well alone.

Don's Kidney Pills have won the praise of thousands of women. They are endorsed at—Read this Maysville woman's convincing statement:

Mrs. Sam Neal, 437 West Second street, Maysville, Ky., says: "Although I have never used Don's Kidney Pills myself, I can recommend them. One of my family had a great deal of trouble from his back and kidneys. Don's Kidney Pills made him entirely better and he always praises them."

"A song sung for the graphophone ten years ago may be just as fresh today as the day the record was made. So it is with God's promise of victory over the grave. It was made a few thousand years ago and recorded in the bible. Open the bible any day and that promise is still there, and means just as much as it did the day it was recorded."

IRONTON MAN

Asks \$25,000 Damages For False Arrest on Charge of Rape

Russell Democrat.

Charles Lusk of Ironton has filed quite a sensational suit in the Greenup Circuit Court against J. P. Hill of this place, Mr. and Mrs. O. F. Williams, formerly of Russell and Rev. O. L. Hamilton, former pastor of the M. E. Church, South, here, but now of Ashland.

Lusk alleges that the plaintiffs caused his false arrest and imprisonment in 1910 upon a charge of having raped Beulah Hamilton daughter of two of the defendants and he asks damages to the extent of \$25,000 for same.

The events of this case are familiar to Greenup county people.

EXPLAIN NOISE OF THUNDER

Modern Science Asserts the Sound Is Caused by a Series of Explosions

There have been a great many different theories about the cause of the noise we call thunder. Some savage nations think it is caused by the clouds knocking together in a storm and making a spark, like two pieces of flint, with a crackling sound at the same time. Not long ago, when electricity first began to be understood, many persons believed that the lightning made a hole in the air as it passed along and that the rush of air to fill up this vacuum caused the noise just as it is caused by the air rushing back into the vacuum in a big cannon.

The more modern theory, based on some remarkable experiments with very fluffy cotton that was made damp, is that the intense heat of the electrical discharge instantly turns the surrounding vapor of the clouds into steam and causes an explosion as sudden and fierce as gunpowder. It is the number and diversity of these explosions that makes the crackling sound we hear when the thunder is close to us, which would not be the case if the cause were the air rushing into a single vacuum, as that would make only one big bang, just like a cannon.

HAS CHANGED AS CANDIDATE

Woodrow Wilson's Speeches Now Those of Office Seeker.

Scattered among the platitudes of Dr. Wilson's speech of acceptance are some truths. None is more significant than this:

"We stand in the presence of an awakened nation, impatient of partisan make believe."

Following which he makes believe that he is telling the voters of the country his position on the campaign issues. No one has yet been able to determine from a reading of the speech precisely what that position is. Some slight enlightenment comes from time to time in his later utterances, like, for example, the declaration the other day that Tammany is to be safe from his assaults; but none of it is satisfying.

Dr. Wilson, in the pre-convention days, was represented to the country as a scholarly gentleman, too lofty of mind to practice the wiles of the professional politician, too earnest in the cause of good government to be sought but frank and fearless in his expression, too unselfish to put private ambition above the public weal, too idealistic in character to truckle to the forces of evil in the nation.

But how singularly he has masked all of these qualities since William Jennings Bryan forced his nomination at Baltimore.

There is no difference, save in the purity of the English, between his speeches and the speeches of the professional office seeker of the worst period in American politics. He steps piously footed over all the large questions of the day. He exhibits a suspiciously broad tolerance for all elements in the body politic, even the elements which, to nominate him, Bryan found it expedient to denounce by name in the convention. There is none of the rugged frankness of utterance that characterized his writings in the days before he was inoculated with the virus of political ambition. He is proving over apt as an advanced student of practical politics.

It is not a pleasant nor a heartening exhibition he makes of himself. The right minded citizen can feel nothing but sadness in contemplating a man of education and culture so intent upon partisan and personal victory that he sacrifices those ideals of truth and honesty for which he has always stood to fawn upon and honeytongue the voters.

Dr. Wilson as a candidate is not in character with the Dr. Wilson that was pictured to us prior to the Baltimore convention. This "awakened nation, impatient of partisan make believe," detects the difference.
